About Me

Frontend Developer with **over 2 years of experience**, specializing in **React, TypeScript, and JavaScript**. Passionate about design and staying current with industry trends to deliver cutting-edge solutions. Beyond technical proficiency, I bring strong **communication, collaboration, and problem-solving** skills to the table, ensuring high-quality project delivery while translating user needs into clean, efficient code. Eager to **contribute to a dynamic team environment**, I am committed to continuous learning in the dynamic frontend landscape.

Experiences

Front-End Developer • Inavitas

September 2022 – Present

- **Led the transformation** of our React application to a **micro front-end architecture**, ensuring alignment with updated designs. Achieved **100%** coverage of main features, decreased customer wait time by **35%**, and reduced build-time by **60%**.
- Covered core functionality by **e2e and unit tests**, resulting in a **30% reduction** in bug-related delays and a **20% increase** in overall code quality.
- Collaborated with industry leaders like TAB Gıda, Havelsan, and TEİAŞ on diverse projects. Ensured **punctual delivery** of new features and played an **active role** in resolving bugs, resulting in a **20%** increase in **customer satisfaction**.
- Enhanced user engagement by maintaining and updating over **15 widgets** on the dashboard page, resulting in **25% boost** in overall dashboard usability.
- Worked with **scrum and agile development principles using JIRA** and collaborated with team members using Microsoft Teams.

Front-End Developer • Arina Digital

April 2022 – September 2022

- Developed the **entire front-end** of the **Teknik Card** project from scratch. This included developing a fully **responsive** website consisting **20 pages**.
- Achieved a **30% increase in user engagement** and a **25% decrease in bounce rate** by translating Figma designs into pixel-perfect and user-friendly web and mobile interfaces.
- Contributed to the renovation and development stages of Mbis and Klimasan projects, resulting in improved project outcomes and efficiencies.

Certifications

- **Data Structures and Algorithms** – ZTM January 2023
- **React The Complete Guide** – Academind September 2022
- **Full-Stack Web Development** Bootcamp – Udemy February 2022
- Using Python to Access Web Data || Python Data Structures || Getting Started with Python – University of Michigan

Education

METU Engineering Bachelor's Degree Sept 2016 – Aug 2021

- CGPA: **3.60/4.0** (5th/456)

Activities

Work and Travel

June 2019 – Sept 2019 Washington DC, USA

- Learned how to communicate with people with a different language and express myself in English better.
